Allowable Subject Matter

1. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 2-5, 7, 16-19, 26-28, and 33-35 are found to be in condition for allowance.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose an outward facing camera system comprising a plurality of polar cameras coupled to a plurality of equatorial cameras and tilted above a plane, wherein each of the polar cameras is tilted out of the plane by an equatorial offset angle and wherein the equatorial offset angle is in the range of 52 to 76 degrees inclusive.

It is noted that the closest prior art of record (Miller US Patent no. 6118595) teaches a similar outward facing camera system, however, Miller fails to particularly teach or suggest *"an outward facing camera system comprising a plurality of polar cameras coupled to a plurality of equatorial cameras and tilted above a plane, wherein each of the polar cameras is tilted out of the plane by an equatorial offset angle and*

wherein the equatorial offset angle is in the range of 52 to 76 degrees inclusive" as specified in the claims.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".
